

Dear FCC Official,

I would like to present my personal opinion and one that I believe is shared by thousands if not millions of people in America. Sinclair Broadcast Group will be in violation of the law if it forces it's affiliates to air an "attack-documentary" on John Kerry a few days before the Presidential Election without providing equal time for a meaningful rebuttal.

This politically motivated misuse of the public airwaves is a clear indication of the dangers inherent in allowing large corporations to control huge blocks of the media.

Thank You for noting my comments.

Michael Saunders
